Comments:

Needless to say, they are all loud inside. The places are packed! Managers and staff are courteous and want to cooperate on how things can be alleviated.

This is my first task force assignment and to be out this late is a rare experience in carrying out our jobs but I want to thank my fellow task force colleagues who watched out for me and kept me safe in crossing the street, etc. We all met each other for the first time tonight and it had been a pleasure carrying out our tasks! Kudos.

DEPARTMENT OF HEALTH - NOISE TASK FORCE REPORT OF 7/23/2021

July 23, 2021 - The Joint Task Force included-

Health Inspector Norma Jarrett; Stamford Police Officers - Eric Cooper and Kevin Becroft, Deputy Fire Marshal Robert Martino, State of CT Department of Consumer Protection – Liquor Control Division Personnel - Special Agent William Boucher, Liquor Control Agents - Kyle Anderson and Michael Kula conducted a joint inspection to investigate various complaints regarding noise, overcrowding, and other public safety issues.

Below are findings:-

T' Kitchen 523 Pacific Street –

There was no band nor amplified music at this facility at the time of inspection. Based on citizen's complaints regarding underage drinking and other concerns, an inspection was conducted. Liquor Control Division & Fire will furnish their reports.

Reyes – 99 Stillwater Ave.

There was amplified music that exceeded levels set by City's Noise Ordinances. The owner was cooperative and lowered the amplified music. Liquor Control Division & Fire will furnish their reports.

Sign of the Whale – 6 Harbor Point Rd.

Restaurant converted to a nightclub atmosphere numerous patrons in attendance; amplified music exceeded the maximum noise ordinance level as set forth in the City's Noise Ordinance. Manager was cooperative and turned down the music. Floors throughout the entire lower level were slippery and heavily saturated with liquid. The floors were also littered with disposable cups as well as shards from colored glass bottles. Liquor Control Division & Fire will furnish their reports.

Hudson Social – 128 Bedford Street

Readings taken at the location exceeded the levels set in the City's Noise Ordinances. There was a long line of patrons waiting to enter the "club - like" establishment. The facility was readily identified to be emitter of the loud amplified music from the open door, and the outdoor amplified speaker. Liquor Control Division & Fire will furnish their reports.

Towne Parlor Pizza – 112 Bedford Street

Readings taken at the location exceeded the levels set in the City's Noise Ordinances. There was a long line of patrons waiting to enter the "club - like" establishment; manager immediately lowered the amplified noise. Liquor Control Division & Fire will furnish their reports.

Capriccio Café – 189 Bedford Street

This facility was closed upon arrival. Liquor Control Division & Fire will furnish their reports.

Bradford's Grill & Tavern – 83 Bedford Street

Readings taken at the location exceeded the levels set forth in the City's Noise Ordinances. The manager was responsive, and immediately turned down the amplified music. There was a patron whom the bouncer recognized was in distress, and the manager summoned for assistance. The Police Officers and Special Agent as well as the Deputy Fire Marshal responded. The EMS responded to the incident and the patron was transported to the Stamford ER. Liquor Control Division & Fire will furnish their reports.

Tigin Irish Pub - 175 Bedford Street

Readings taken at the location exceeded the levels set forth in the City's Noise Ordinances. The manager was responsive, and immediately turned down the amplified music.

It is important to note that majority of the establishments on Bedford Street (between Broad & Spring), the close proximity and the tunneled layout, makes it difficult to distinguish the exact emitter's reading; **except for those with open doors coupled with the outdoor speakers with amplified music.**

The Brick House – 244 Bedford Street

Readings taken at the location exceeded the levels set forth in the City's Noise Ordinances. Additionally there were several customers smoking in the front foodservice area. Liquor Control Division & Fire will furnish their reports.

There is pervasive use of outdoor speakers transmitting garish, amplified music from establishments on Bedford Street.

Other observation is that of the heavy traffic flow and loud music from motor vehicles and bikes in said vicinity. There was one driver that made a right turn from Spring Street onto Bedford Street; this was corrected in a timely manner to prevent any major catastrophe.
