Re: M & J Engineering, LLC
RFQ #685 – Fiber Optic Trunk Cable Installation Inspection Services

Attached are two (2) *copies* of the above described Agreement, which I have approved as to form. The City of Stamford operates a state-of-the-art traffic control system that communicates with nearly two-hundred (200) intersections. Fiber-optics has become the preferred method of achieving communications given its higher bandwidths and reliability. Pursuant to this Agreement, M & J Engineering will perform construction inspection services for the replacement of the existing communication system with an upgraded fiber-optic network.

As the contract price exceeds \$100,000, it must be approved by the Board of Finance and the Board of Representatives. Therefore, please forward the Agreement to the Boards for their respective approval.

Thank you for your consideration.

Chris Dellaselva
