---

Representative McMullen recently requested the Board Office circulate to the Board of Representatives an analysis which suggested that out of state license plates represent a small fraction of Parking Violations.

Sadly that analysis misses the essential problem faced in my District. For us the issue is, at least in part, out of State license plates taking advantage of our free and unrestricted parking zones to avoid the fees we have recently imposed on beach permit parking. I attach herewith a video from Jill Luciano, Chairperson of the Shippan Point Association illustrating the abuses in Czescik Marina Park Parking Lot which had no permit requirements. We have very recently implemented Beach Permit Parking requirements in that Lot and all or most of the violators will now move to Shippan Avenue.

Respectfully

David Watkins
