

CITY OF STAMFORD, CONNECTICUT

30th Board of Representatives

Mission Statement

We, the members of the Stamford Board of Representatives, are the elected officials closest to the people.

Therefore, the Board must be an active participant in decisions affecting the citizens of our City. On major issues, the Board establishes policy and develops plans in conjunction with city officials, boards and commissions.

It is our responsibility to promote effective communication of the interests and concerns of diverse constituent groups throughout the City in order to insure that the best decisions are made for all citizens.

In order to fulfill these responsibilities, the Board acts as a liaison between the government and the people and participates in a proactive manner in planning for the City and its peoples' future.

*~ Adopted at the September 12, 1998
Retreat of the 25th Board of Representatives*
