Kathy and Jim –

The Board of Representatives would like a legal opinion regarding the verification of the Petition appealing the approval by the Planning Board of Application MP-432 and Application MP-433. Specifically, the opinion should address whether or not the Board must consider whether the Petition meets the requirements of C6-30-7 separately as to each of the applications or whether the Board can consider whether the Petition meets the requirements of C6-30-7 jointly as to both applications. The Land Use Committee will be meeting to discuss this item on Monday, February 11<sup>th</sup>.

Thank you,  
Valerie
