Dear Valerie,

Could you please send this invitation to all members of the Board of Representatives.

This lecture is free and open to the public and we hope to get a good turnout.

Thanks for your help.

Eva

Dear Friends,

I wanted to make sure you knew about this great event that the JHS is presenting in a couple of weeks. With all the discussions and battles raging about immigration right now, it's such a terrific opportunity to hear from a truly neutral and thought-provoking top-level expert, who will give us a great picture of what's really happening — how immigration really has affected us in the past, what's actually going on right now, and what the future impact of all of this will be, depending on which direction we choose.

Please RSVP that you will join us on June 17th.

Norma and Milton Mann Lecture*

Immigration to the US – Myth and Reality

Presented by Dr. Jeffrey S. Passel

Nationally recognized immigration expert and senior demographer at the Pew Research Center, Washington D.C.

Sunday, June 17, 2018

Refreshments served at 10:30 a.m. • Lecture at 11 a.m.

Hosted by Temple Beth El, 350 Roubury Road, Stamford

RSVP 203-321-1373, ext. 150 or email info@jhsfo-ct.org

Dr. Jeffrey S. Passel is the chief media spokesperson for the nonpartisan Pew Research Center "fact tank" in Washington, DC, which informs the public about issues and trends shaping the world without taking policy positions. Dr. Passel, recognized as a leader in his field, has developed measures of immigration trends that are widely cited by all sides in debates over immigration and its effects.

Dr. Passel will give us an unbiased overview of past immigration history and its contributions to the country, as well as recent trends in both legal and unauthorized immigration, and he'll paint a picture of the future impact of immigration – social, demographic, and financial – on the US population.

Underwritten by the Mann Family Foundation to honor the memory of their parents.
