Mission Statement

The Mission of E. Gaynor Brennan Municipal Golf Course is to provide the residents of Stamford and neighboring areas a preeminent public golf course. E. Gaynor Brennan is an 18 Hole Golf Course with a practice chipping/putting green, a full-service restaurant and clubhouse containing a golf simulator, lockers and golf shop. Amidst a competitive market for public golf the aim is for continually improving course conditions while being both fiscally responsible and environmentally mindful.

E. Gaynor Brennan operates as a self-sustaining entity with all of our expenses funded by revenues generated through user fees. The Golf Commission has created a fee structure, to be approved by the boards, with a gradual increase over the next 3 years for rounds of golf. This increase will support our operational costs as well as keeping us aligned with area golf courses.

Budget Highlights (FY 2025-26)

FY Comparison FY 2024-25 to FY 2025-26

	Totals through end of Feb.		Full FY 2024-25
	FY 2024-25	FY 2025-26	
Rounds Played	23,029	22,975	39,053
Player Revenue	\$740,284	\$733,761	\$1,244,139
Carts Rented	17,932	18,085	29,707
Carts Revenue	\$294,151	\$296,198	\$487,982
Permits Sold	210	180	1,441
Permit Revenue	\$15,335	\$12,885	\$107,695
PAR Pass Sold	11	7	81
PAR Pass Revenue	\$1,925	\$1,275	\$15,425
Sr Pass Sold	33	25	132
Sr Pass Revenue	\$2,640	\$2,000	\$10,560

The Budget has remained flat except for costs outside of our control i.e. Contractually mandated increases and utilities. Our revenue estimates for FY 26/27 is based on 39,500 player rounds.

Key Challenges & Changes (FY 2026-27)

We were able to increase our inventory and have continued our efforts to purchase another Electric Backpack Blower for our grounds crew. This purchase is keeping us align with the city's vision of a Greener Stamford and keeps us ahead for the future ban of Gas Pack Blowers.

Our goal is to lower our overall fuel expense in our budget with the purchase of electric power equipment.

Performance Improvements & Efficiencies:

The golf course has started to upgrade and improve our bunkers throughout the course. There will be some bunkers in the process that will be eliminated, and other bunkers will be improved with adding sand and removing excess of rocks in the bunkers.

Our City of Stamford Tree Department has been out to the golf course over this past year to assess the dead and dying trees on the course and improve the course for better play and safety.

New or Expanded Services/Programs (FY 2025-26)

E. Gaynor Brennan Municipal Golf Course will be upgrading our Irrigation System. This will improve the course aesthetic appeal, maximize water delivery system, reduce waste, minimize repairs of our current system while saving labor.

We will be finalizing our contract with our Irrigation Consultant, who we will work with to help design the new irrigation layout of the course.

This project will not close the course, but we may need to close certain areas of the course for the safety of our golfers.

Thank You!
