Subject: Public Comment for Operations Committee Meeting August 21st
Date: Thursday, August 21, 2025 9:40:47 AM

Please see the below from Kieran Edmondson for O31.077. He would like it read into the record for the public hearing.

Subject: Operations Committee Meeting August 21st

Sheila,

Here's another letter that I want you to submit, for tonight's meeting of the Operations Committee, for the public hearing on exterior lighting standards, and for that, can this also be read for the record, too?

“ To, the Operations Committee,

This is Kieran Edmondson, a Waterside neighborhood resident of the City of Stamford, Connecticut, and I am willing to be writing this important letter, to the members of this committee, of the 31st Board of Representatives, about dealing with concerns with exterior lighting standard procedures, so when it starts to get dark a little earlier, and before 1 hour of sunrise periods, we can see a significant amounts of lighting standards, in every house, home, hotel, motel, restaurant, business organization, corporation, school, and various other of private, and public buildings, so we can maintain security, safety of health, prevention of crime, etc.

To the Operations Committee, as I have previously mentioned in the regular meeting, of the 31st Board of Representatives, earlier this month, on August 4th, about dealing with the issue of lighting procedures, that should be of significant importance, during the evening, nighttime, and earlier morning hours, so we can protect healthy lives, maintain security purposes, reduce the levels of crimes, and have peacetime opportunities with such interference, I am writing this letter to every single one of you, about taking more steps, and meaningful action to seek more possible ways, to make sure that lighting standards continue to appear, in many parts of the Stamford community, so when it starts to get dark, and before sunrise occurs in the morning, we can see many lights appear in public, and private buildings for additional reasons, as it must maintain comfortable solutions for residents, who are going out on many activities, and outing events, and to make safety, security, and health one of the most important topics, of our daily lives.

To the Operations Committee, please make another important decision for the betterment, of our citizens' daily lives, and to continue to improve such appropriate measures.

From, Kieran Matthew Edmondson,

To, the Operations Committee of the 31st Stamford Board of Representatives”
